This request for reconsideration is being filed in view of the matters raised in the decision mailed September 10, 2002.

The Petitions Attorney has indicated that two items are yet to be supplied, (1) proof that the non-signing inventors did not execute the application and (4) a statement of the last known address of the non-signing inventors.

As to item (1), non signing inventors Benson and Grimshaw were sent the complete application originally when their signatures were sought. However, for the avoidance of any

doubt, further letters were sent to the inventors seeking execution of the application. Copies of those letters, dated September 25, 2002, are appended hereto.

To date, neither Mr. Benson nor Mr. Grimshaw has returned the executed papers, nor has either responded to the September 25, 2002 letter. It can only be assumed that the inventors refuse to execute the documents that have been provided to them. Also, it will be seen from the attachments hereto that complete copies of the application were sent to both inventors.

Regarding item (4), the last known address of each inventor was provided previously, but for convenience, the addresses, as set forth in the attached documents are also set forth below:

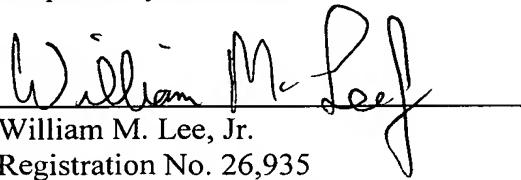

Iain Benson

170B Reading Road South  
Church Crookham  
Hampshire GU13 0AE, England

Michael Grimshaw  
Mardlewood Cottage  
Higher Combe, Buckfastleigh

Given the above, granting of this petition is submitted to be in order, and such action is therefore solicited.

November 11, 2002

Respectfully submitted,

Dear Iain

**Re: US Patent Application Serial No. 10/032,416  
Isolation of Microwave Transmission Lines**

You may recall that this application was filed towards the end of 2001.

A copy of the application as filed was attached to a "Declaration" form sent to you on 16 April 2002. To date, you have not signed and returned this Declaration form, or the Assignment form sent to you at the same time.

Please can you return these forms to me. For the avoidance of doubt, I enclose a further copy of the Declaration form, the Assignment form and the patent application as filed.

Yours sincerely

Nick Ertl
